The parties have filed a motion for remand under sentence four of Section 205(g) of the Social Security Act. The motion will be granted.

On remand, plaintiff William Fifer will be provided the opportunity to submit additional evidence and arguments, and to appear for a hearing. Additionally, on remand, the Administrative Law Judge will: (1) proceed through the sequential evaluation process and determine whether plaintiff had substantial gainful activity during the relevant time period; (2) reevaluate the entire record, including the treatment history; (3) comply with Social Security Ruling 96-7p and reevaluate plaintiff's credibility regarding the nature and limiting effects of his alleged impairments; (4) weigh all the medical opinions of record, as well as the opinion of Steven Immerman, MD, dated August 1, 2014; (5) address plaintiff's diagnosis of colorectal cancer in 2012 to determine whether that diagnosis was a medically determinable impairment during the period at issue, and if so consider whether it, alone or in combination with other determinable impairments, meets or medically equals a listed impairment, including Listing 13.18; (6) if necessary, reevaluate plaintiff's residual functional capacity; (7) if necessary, use Social Security Ruling 13-2p to evaluate whether alcohol abuse was a material factor to disability; and (8) issue a new decision.
